3-Way Motion Sensing Switch

The 3-Way Motion Sensing Switch is a versatile addition to any home or office environment. It allows for the adjustment of lighting levels and the activation of lights based on motion detection.

**Installation**

1. **Prepare the Controls:**
   - Mount the MSS into the junction box with the two junction box screws.
   - Choose which switch will be replaced and remove it.

2. **Connect the Wall Switch:**
   - Connect the wall switch as shown.
   - The switch may be connected to other wall switches or to a remote switch.

3. **Install the MSS Control:**
   - Install the MSS control in the junction box.

4. **Complete Installation:**
   - Replace the cover and cover plate.

**Adjustments**

**Light Level:**

- The sensor can be adjusted to function at different lighting levels. The light level is adjustable from 1/8 to full input.

**Mode Selection Switch:**

- The Mode Selection Switch allows for the adjustment of the light level in the selected area.

**Troubleshooting:**

- **Possible Causes:**
  - Incorrect wiring.
  - Incorrect switch settings.
  - Incorrect power source.

**Specifications:**

- **Input:**
  - 120V AC, 60 Hz

- **Output:**
  - Adjustable from 1/8 to full input

- **Operating Temperature:**
  - -40°F to 122°F

**Use:**

- For offices, homes, and commercial settings.

- **Oscillation Modes:**
  - Adjustable up to 3.

- **Color of Motion Sensor:**
  - Red & Black

- **Fuses:**
  - 5A

- **Dimensions:**
  - 2.5" x 2.5" x 1.5"

**Warning:**

- Use only with the GE 3-Way Motion Sensing Switch.
